

## Attorney

# Mladen Milovic

At the heart of every legal issue is a discrete problem that must be solved. Mladen enjoys developing and implementing his keen problem-solving ability for the wide array of legal issues presented by clients.

He relishes resolving matters for clients at the pre-litigation stage, but is no stranger to a courtroom or arbitration panel. Outside the office, Mladen lifts heavy things, watches Lando Norris tear up Formula 1 Circuits, and reads anything he can get his hands on.
